Subject Fw: Statement and conference call

Sean: do you want to forward to Lacewell the email you sent last night, which I presume you just sent to Biben, and which answers #1 and #2, and let her know that we'll respnd to #3 before the 11:00 call?

Also, when you talk to Dopp's lawyer, it would be really helpful to know the genesis of Odat's second FOIL request of 7/10. What prompted that?

Subject: Re: Statement and conference call

Thank you. We have some pending questions -- could you advise where we are on those? For your convenience they are:

- whether you have given us all relevant emails you have found
- confirming the dates and bates-ranges that the documents were provided to the Times-Union
- whether you are making available Dopp and Baum for interviews.

Linda

Attached is a draft statement from the Governor in response to the report that we understand the OAG intends to issue on Monday. Needless to say, this is still a draft, particularly given that we have not yet been briefed on the contents of the report.

As you will see, the draft statement does not propose any sanction with respect to Acting Superintendent Felton. Having considered this matter further, and based on the information that we are aware of, we do not believe that disciplinary action is warranted against the Acting Superintendent. (Obviously, as we continue our national search for a permanent Superintendent, the information in your report will be relevant to the decision that ultimately is made.)

In addition, here is the call-in information for the conference call at 11:00 a.m. tomorrow:

Call-in [REDACTED]  
PIN # -- [REDACTED]
