Subject Re: [REDACTED]

I'll get you the signed Baum and Dopp statements imminently.

The revised draft of the Governor's statement (with the sentence you requested) is attached.

Two caveats: (1) we are going to meet tonight and in the morning to decide whether the disciplinary sanctions being imposed are appropriate, in view of the facts that you outlined today (we'll probably want to read the report before making a final decision on that); and (2) we are saying in this statement that the report is "fair", so we obviously need to see it first. I am trusting your representations that this primarily is a factual recitation of what occurred, without a lot of "descriptive adjectives", so obviously we'll need to read the report in the morning to confirm that.
